Welcome

Dear colleagues

The number of malignancies where immunotherapy has gained approval has rapidly grown, and increasingly, immunotherapy is being combined with other treatment modalities.

This advancement of science and development of new immunotherapeutic agents requires a multidisciplinary approach. The 5th Zurich Immuno-Oncology Symposium will bring together clinicians and scientists across the cancer immunotherapy field to deepen the understanding of cancer, the immune system and immunotherapy.

The 2021 program covers topics such as new analysis techniques, methodologies, artificial intelligence and treatment strategies for selected tumor entities.

We look forward to welcoming you to the virtual 2021 Immuno-Oncology Symposium hosted by the Comprehensive Cancer Center Zurich.

Markus G. Manz

Medical Oncology and Hematology, University Hospital Zurich

Michael Weller

Neurology, University Hospital Zurich

Matthias Guckenberger

Radiooncology, University Hospital Zurich

Program

Wednesday, February 3rd

16.30 h Welcome

Chairs: Markus G. Manz, University Hospital Zurich, and Felix Beuschlein, University Hospital Zurich

16.35 h Keynote: Biomarkers for IO Treatment Selection with Focus on Lung Cancer

Sanjay Popat, The Royal Marsden Hospital, London

17.10 h Single Cell Analysis

Bernd Bodenmiller, University of Zurich

17.35 h PET Imaging

Elisabeth de Vries, University Medical Center Groningen

18.00 h Artificial Intelligence for Digital Tissue Biomarker Discovery in Immune Oncology

Günter Schmidt, AstraZeneca Computational Pathology GmbH

18.25 h Wrap-up

Thursday, February 4th

16.30 h Welcome

Chairs: Matthias Guckenberger, University Hospital Zurich, and Michael Weller, University Hospital Zurich

16.35 h Keynote: Head Neck Cancer

Kevin Harrington, The Institute of Cancer Research, London

17.10 h Breast and Gynecological Cancers

Giuseppe Curigliano, University of Milan, European Institute of Oncology

17.35 h Brain Tumors and Metastases

Michael Weller, University Hospital Zurich

18.00 h Melanoma

Mitch Levesque, University Hospital Zurich

18.25 h Wrap-up
