Welcome

Dear Colleagues

It is our great pleasure and honor to invite you to a special farewell symposium for our colleague and friend, Rolf Stahel.

Rolf Stahel has shaped the development of Oncology not only in Zürich and Switzerland, but also through the European Society of Medical Oncology with major outreach across the globe, e.g., with the initiation of closer cooperation between Europe and the Asia Pacific region by the introduction of the ESMO Asia Conferences. He has also been instrumental in joining forces of clinical and experimental cancer research in Zürich, through the Cancer Center Zürich, and more recently the Comprehensive Cancer Center Zürich – Zürich owes him a lot for his efforts!

On October 6th, 2020 we would like to celebrate Rolf and we hope that many of you will join us for this important event.

Kind regards

Michael Weller and Markus G. Manz
