Welcome

Dear colleagues

Since eighth years, the Thoracic Oncology Center is a strong pillar of the Comprehensive Cancer Center Zürich. We could contribute to and witness the extraordinary advances in diagnosis and treatment of lung cancer. Lung cancer screening is becoming a promising method to prevent cancer-related mortality and surgical techniques have been refined addressing small lesions as well as locally advanced disease. In the same time, stereotactic radiotherapy has revolutionized the field of radio-oncology providing results unheard in the past. Molecular pathology and PET-imaging have become an intricate part of lung cancer diagnostics and patients are profiting from staggering advances in personalized therapy and therapy with immune checkpoint inhibitors.

With this symposium, we will demonstrate the collaborative spirit within our Thoracic Oncology Center, give an overview on current and evolving standards of diagnosis and treatment and highlight the considerable advances in personalized therapy and immunotherapy, as well as the fruitful exchange with our colleagues at the Shanghai Chest Hospital.

Prof. Dr. med. Rolf Stahel
Prof. Dr. med. Walter Weder
Co-Chairs Thoracic Oncology Center
Comprehensive Cancer Center Zürich

Program

- 09.55 h** **Welcome**
Rolf Stahel, Walter Weder
- Lung Cancer Screening and Approach to Small Lesions**
Daniel Franzen
- 10.00 h** **Lung Cancer Screening – the Evidence**
Milo Puhan
- 10.20 h** **Introducing Navigation Bronchoscopy**
Daniel Franzen
- 10.40 h** **Ground Glass Opacities and Pulmonary Nodules**
Kenji Suzuki
- 11.00 h** **Discussion**
- 11.15 h** Break
- Molecular Pathology of Lung Cancer**
Holger Moch
- 11.30 h** **Optimizing the Diagnostic Process**
Alex Soltermann
- 11.50 h** **What NGS can Provide**
Christian Britschgi
- 12.10 h** **Discussion**
- 12.20 h** Lunch
- Development in Stage III NSCLC Disease**
Alessandra Curioni
- 13.30 h** **Multimodality Approaches with Focus on Surgery**
Walter Weder
- 13.50 h** **Multimodality Approaches with Focus on Radiotherapy**
Matthias Guckenberger
- 14.10 h** **Discussion**

Program

The Improvement of Survival in Metastatic NSCLC

Rolf Stahel

- 14.20 h **Targeted Therapy for Patients with Oncogenic Driver NSCLC**
Egbert Smit
- 14.40 h **Immune Checkpoint Inhibition for Patients with Tumors lacking
Oncogenic Drivers**
Alessandra Curioni
- 15.00 h **Discussion**
- 15.10 h Break

The Importance of Clinical Trials

Matthias Guckenberger

- 15.25 h **ETOP**
Rolf Stahel
- 15.45 h **CTONG**
Shun Lu
- 16.05 h **Gathering Real World Data**
Qiang Tan
- 16.25 h **Discussion**

Approach to Oligometastatic Disease

Walter Weder

- 16.40 h **Surgery for Oligometastatic Disease**
Isabelle Opitz
- 17.00 h **SBRT for Oligometastatic Disease**
Fiona McDonald
- 17.20 h **Discussion**
- 17.30 h **Adjourn**

Speakers

Dr. Dr. Christian Britschgi

Department of Medical Oncology
and Hematology, USZ

PD Dr. Alessandra Curioni

Department of Medical Oncology
and Hematology, USZ

PD Dr. Daniel Franzen

Department of Pulmonology, USZ

Prof. Dr. Matthias Guckenberger

Department of Radiation
Oncology, USZ

Prof. Dr. Shun Lu

Shanghai Chest Hospital, China

Dr. Fiona McDonald

The Royal Marsden, UK

Prof. Dr. Holger Moch

Institute of Pathology and
Molecular Pathology, USZ

Prof. Dr. Isabelle Opitz

Department of Thoracic Surgery,
USZ

Prof. Dr. Milo Puhan

Institut für Epidemiologie,
Biostatistik und Prävention, UZH

Prof. Dr. Egbert Smit

NKI, The Netherlands

Prof. Dr. Alex Soltermann

Institute of Pathology and
Molecular Pathology, USZ

Prof. Dr. Rolf Stahel

Comprehensive Cancer Center
Zürich

Prof. Dr. Kenji Suzuki

Juntendo University School of
Medicine, Japan

Prof. Dr. Qiang Tan

Shanghai Chest Hospital, China

Prof. Dr. Walter Weder

Department of Thoracic Surgery,
USZ

Information

Registration

Until June 28th, 2019 at
www.usz.ch/symp-lung-2019
or kathleen.beese@usz.ch
Participation is free of cost.
