

## COMPREHENSIVE CANCER CENTER ZURICH

### CCCZ FELLOWS SYMPOSIUM

17th of November 2021, 14:30 – 19:45 h

University of Zurich, Aula KOL-G-201

## Program

14:30 **Welcome**  
Prof. Dr. med. Markus Manz / Prof. Dr. med. Matthias Guckenberger

### Session I Chairs: Prof. Dr. Anne Müller and Prof. Dr. Maries van den Broek

14:45 **Inhibitors of Bcl-2 and Bruton's tyrosine kinase synergize to abrogate diffuse large B-cell lymphoma growth in vitro and in orthotopic xenotransplantation models**  
[Dr. Katrin Bertram](#) / Prof. Dr. Anne Müller / Prof. Dr. med Thorsten Zenz

15:00 **Alternative combined radioimmunotherapy to overcome treatment-related resistances**  
[Dr. Carmen Yong](#) / Prof. Dr. Martin Pruschy / Prof. Dr. med Onur Boyman

15:15 **Deciphering tumorigenesis driven by replication-associated DNA damage**  
[Dr. Nina Desboeufs](#) / Prof. Dr. Massimo Lopes / Prof. Dr. med. Achim Weber

15:30 **Validation of mono-ADP-ribosylated proteins as diagnostic and prognostic tool in oncology**  
[PD Dr. Peter Schraml](#) / Prof. Dr. Michael O. Hottiger

15:45 **Tertiary lymphoid structures in metastatic melanoma and non-small cell lung cancer tissues as predictive markers for the outcome of checkpoint inhibitor treatment**  
[Dr. med. Oltin T. Pop](#) / Prof. Dr. Maries van den Broek / Prof. Dr. med. Lukas Flatz

16:00 **Break**

*Important: Admission according to the 3G rule.  
Participants must show a valid COVID certificate in addition to the existing measures.*

# Program

## Session II – Chairs: Prof. Dr. Bernd Bodenmiller and Prof. Dr. med. Holger Moch

- 16:30 **Immuno-radiomics as a novel prognostic and predictive biomarker in malignant melanoma treated with immune checkpoint inhibition – a multi-systems approach**  
[Dr. Simon Burgermeister](#) / Prof. Dr. Mitchell Levesque / Prof. Dr. med. Matthias Guckenberger
- 16:45 **Investigating the functional role of cellular phenotypes in melanoma targeted therapy**  
[Dr. Jelena Vasilevska](#) / Prof. Dr. Lukas Sommer / Prof. Dr. med. Reinhard Dummer
- 17:00 **Investigating reactivation of embryonic programs in inflammation and metastatic cancer of the colon**  
[Dr. Hassan Fazilaty](#) / Prof. Dr. Konrad Basler / Prof. Dr. med. Dr. phil. Gerhard Rogler
- 17:15 **Targeting the transcriptional network architecture driven by the oncogenic TCF3-HLF fusion**  
[Dr. Valdemar Priebe](#) / Prof. Dr. Raffaella Santoro / Prof. Dr. med. Dr. sc. nat. Jean-Pierre Bourquin
- 17:30 **Ida de Pottère-Leupold and Dr. Iur. Erik de Pottère Cancer Research Award for doctoral students – Johanna Wagner, PhD**
- 17:40 **Ida de Pottère-Leupold and Dr. Iur. Erik de Pottère Cancer Research Award for clinician-scientists – Tobias Weiss, MD/PhD**
- 17:50 **Ida de Pottère-Leupold and Dr. Iur. Erik de Pottère Cancer Research Award – Ceremony**  
Prof. Dr. med. Markus Manz / Prof. Dr. med. Matthias Guckenberger
- 18:00 **Break**

## Session III – Chairs: Prof. Dr. Konrad Basler and Prof. Dr. Raffaella Santoro

- 18:15 **An integrative approach to characterize and exploit the epigenetic landscape in glioblastoma**  
[Dr. Martin Cusack](#) / Prof. Dr. Tuncay Baubec / Prof. Dr. med. Michael Weller
- 18:30 **Butyrate-producing bacteria ameliorate CRC tumorigenesis through modulation of immune responses**  
[Dr. Ana Montalban-Arques](#) / Prof. Dr. Lubor Borsig / Prof. Dr. med. Michael Scharl
- 18:45 **Ageing-derived IL-1 promotes Tet2+/- clonal expansion in mouse models of clonal hematopoiesis**  
[Dr. Francisco Caiado](#) / Prof. Dr. Jacob Corn / Prof. Dr. med. Markus G. Manz
- 19:00 **The immune environment of acute myeloid leukemia**  
[Dr. Stefanie Kreutmair](#) / Prof. Dr. Burkhard Becher / PD Dr. med. Alexandre Theocharides
- 19:15 **Apéro**
